Statement of Intent:

The purpose of this bill is to continue funding the Nebraska Cultural Preservation Endowment Fund not to exceed \$500,000.00 beginning on December 31, 2017, and continuing through December 31, 2026. Annual contributions to the Endowment Fund must be matched by private funds raised by the Nebraska Arts Council and the Nebraska Humanities Council. Current funding is \$750,000.00 so this bill lowers the annual endowment request by \$250,000.00. The Fund was created in 1998 to do three things: first, sixty-five percent for stabilization of arts organizations; second, thirty percent for arts education programs that have significant statewide impact; and, third, five percent for advocacy for the importance of the arts to our economy, education and quality of life. Five million dollars was placed in the Fund at the time of its creation. The money in the Fund comes from the interest earned on the principal (corpus) of the Fund which is currently nine million dollars. The earnings are available for the Nebraska Arts Council (70%) and the Nebraska Humanities Council (30%) as it is matched by private dollars raised by the two Councils. Funds are distributed through grants and other programs such as the Humanities Resource Center and Scholars in Residence.

Opponents:

Representing:

Representing:

Statement of Intent:

LB789 will reduce costs and permit more efficient administration by the Nebraska Arts Council. This will allow for a greater amount of money to accumulate in the art maintenance fund, avoiding additional appropriations. The bill: 1. Permits the agency that is contracting for a work of art with the selected artist to negotiate the installation costs with the artist. This will result in a cost savings to the contracting agency. 2. Removes the 2010 revision that only ten percent (10%) of the fee the Nebraska Arts Council receives for administering a "1% for Art" project can be allocated to the maintenance fund. Removing this provision will allow the fund to grow more quickly to meet the demand for repairs of art in the existing "1% for Art" inventory.

Statement of Intent:

LB1006 is a bill to appropriate \$250,000 annually to the Office of the Attorney General for the purpose of hiring one or more forensic accountants or other staff or resources needed to investigate cases of financial exploitation of vulnerable adults. There is an alarming increase in the number of cases of financial exploitation and there is a lack of resources to investigate and prosecute those cases. While our state and nation face an aging population, the need to prosecute financial exploitation is greater than ever, and providing more resources to fight these crimes is imperative. Financial exploitation cases are extremely time consuming. It is very difficult for law enforcement and Adult Protective Services to obtain financial records from banks. This time constraint often hinders investigations and APS is not equipped with the appropriate staff to dedicate themselves to all the financial exploitation cases that they encounter. Forensic accountants are experienced auditors, accountants, and investigators of legal and financial documents that are hired to look into possible suspicions of fraudulent activity.

One of the top concerns voiced by Nebraska employers is the shrinking pool of qualified employees – especially with a jobless rate under 3% and more than 50,000 current job openings. To help address Nebraska’s workforce challenge, the Legislature and former Governor Dave Heineman in 2011 established a unique grant program called the Intern Nebraska (InternNE) program. Administered by the Nebraska Department of Economic Development, InternNE provides financial assistance to businesses that are willing to create new internships. Interns obtain valuable experience, while businesses develop future employees. This bill would:

- Boost funding for the Nebraska Intern program by \$1.5 million for two consecutive fiscal years.
- Expand the eligibility of the intern program by allowing high school students in the 11th or 12th grade who attend a public or private high school. This provision is aimed at helping Nebraska communities retain young people.
- Eliminate the current law’s residency requirement for student interns under the Intern Nebraska program
